March is Ladder Safety Month

Did you know that March is National Ladder Safety Month? Every year, more than 300 people die from a ladder-related accident and thousands suffer from disabling and/or debilitating injuries. These deaths and injuries could be prevented with correct ladder use. Without proper training, we will continue to see far too many fatalities. That's why, UT Facilities Services is excited to participate and support this important initiative by offering new ladder safety training through American Ladder Institute. If you're interested in taking this training, have your supervisor contact Troy on the Training team at tsoumeil@utk.edu.

VolCard Mobile Update Info

We want to remind all UT Knoxville students, faculty and staff that you must update your VolCard to the mobile credential by April 18, 2022. Information about the use of this credential can be found at <https://safety.utk.edu/physical-security/>.

After this date, swipe technology will no longer be available on academic and administrative building card readers. The image below represents the building access swipe technology that will no longer function after April 18.

Internal Positions Open

We currently have several open positions! If you are interested in applying, visit <https://hr.utk.edu/staff-positions/> and click the "Staff Positions for Internal Candidates" link.
