THE SCHOLARSHIP

Facilities Services understands the value of hard work and education for our employees, their dependents and our student assistants. As such, we are proud to offer the Facilities Services Student Assistant Scholarship to student workers and the John C. Parker Scholarship for dependants of Facilities Services employees. Your support of this fund helps Facilities Services close the gap between a student's financial aid and financial need, which in turn allows the university to attract and aid the most talented and well-deserving students and employees. The 2026 tournament benefits the John C. Parker Scholarship Fund.
